DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. **Joao Raymond** on 16 April 2007.

The application has been amended as follows: in the Preliminary Amendment filed on 01 March 2007, after the phrase "Listing of Claims:" insert a new line with --- Claims 1-20 (canceled).---

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance. Per applicant requests to have a whole set of each independent claims 21, 41 and 44 as statement of reasons for allowance as follow:

Claim 21, the prior art does not teach or suggest, alone or in combination, an apparatus comprising: a shipment conveyance device, wherein the shipment conveyance device is associated with a shipment, and further wherein the shipment conveyance device is at least one of a shipping container, a pallet, and a tote;

a memory device, wherein the memory device is located in, on, or at, the shipment conveyance device, wherein information regarding the shipment is stored in the memory device, and further wherein the information regarding the shipment includes a description of a good, product, or item, being shipped via the shipment conveyance device, and at least one of origination information, sender information, shipper information, destination information, receiver information, handling instruction information, delivery instruction information, invoice information, packing slip information, delivery time information, and payment instruction information, regarding the shipment;

a global positioning device, wherein the global positioning device is located in, on, or at, the shipment conveyance device, and further wherein the global positioning device determines a position or location of the shipment conveyance device;

a processing device, wherein the processing device processes at least one of information regarding the shipment and information regarding the shipment conveyance device in response to an occurrence of an event or in response to a request for information regarding the shipment or the shipment conveyance device, wherein the processing device generates a message containing information regarding the position or location of the shipment conveyance device and information regarding at least one of the occurrence of an event, a status of the shipment, a shipment temperature, and an impact or force on the shipment conveyance device; and

a transmitter, wherein the transmitter is located in, on, or at, the shipment conveyance device, wherein the transmitter transmits the message to a communication

Art Unit: 2612

device associated with at least one of an individual or entity, a sender of the shipment, a receiver of the shipment, a carrier of the shipment, and an individual or entity authorized to receive information regarding the shipment or the shipment conveyance device.

Claim 41, an apparatus comprising: a shipment conveyance device, wherein the shipment conveyance device is at least one of a shipping container, a pallet, and a tote;

a memory device, wherein the memory device is located in, on, or at, the shipment conveyance device, wherein information regarding a shipment is stored in the memory device, and further wherein the information regarding a shipment includes a description of a good, product, or item, being shipped via the shipment conveyance device, and at least one of origination information, sender information, shipper information, destination information, receiver information, handling instruction information, delivery instruction information, invoice information, packing slip information, delivery time information, and payment instruction information, regarding the shipment;

a global positioning device, wherein the global positioning device is located in, on, or at, the shipment conveyance device, and further wherein the global positioning device determines a position or location of the shipment conveyance device;

a processing device, wherein the processing device is located in, on, or at, the shipment conveyance device, wherein the processing device processes information regarding the shipment conveyance device in response to an occurrence of an event or in response to a request for information regarding the shipment conveyance device,

Art Unit: 2612

wherein the processing device generates a message containing information regarding the position or location of the shipment conveyance device and information regarding at least one of the occurrence of an event, a status of the shipment, a shipment temperature, and an impact or force on the shipment conveyance device; and

a transmitter, wherein the transmitter is located in, on, or at, the shipment conveyance device, wherein the transmitter transmits the message to a communication device associated with at least one of an individual or entity, a sender of the shipment, a receiver of the shipment, a carrier of the shipment, and an individual or entity authorized to receive information regarding the shipment or the shipment conveyance device.

Claim 44, an apparatus comprising: a shipping container, wherein the shipping container is associated with a shipment;

a memory device, wherein the memory device is located in, on, or at, the shipping container, wherein information regarding the shipment is stored in the memory device, and further wherein the information regarding the shipment includes a description of a good, product, or item, being shipped via the shipping container, and at least one of origination information, sender information, shipper information, destination information, receiver information, handling instruction information, delivery instruction information, invoice information, packing slip information, delivery time information, and payment instruction information, regarding the shipment;

a global positioning device, wherein the global positioning device is located in, on, or at, the shipping container, and further wherein the global positioning device determines a position or location of the shipping container;

a processing device, wherein the processing device processes at least one of information regarding the shipment and information regarding the shipping container in response to an occurrence of an event or in response to a request for information regarding the shipment or the shipping container, wherein the processing device generates a message containing information regarding the position or location of the shipping container and information regarding at least one of the occurrence of an event, a status of the shipment, a shipment temperature, and an impact or force on the shipping container; and

a transmitter, wherein the transmitter is located in, on, or at, the shipping container, wherein the transmitter transmits the message to a communication device associated with at least one of an individual or entity, a sender of the shipment, a receiver of the shipment, a carrier of the shipment, and an individual or entity authorized to receive information regarding the shipment or the shipping container.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
